

# MS. YANG

I'm Yang Xu, I have been in Lexington for more than two years. My family came to America in 2009. I have a caring husband and a lovely 17 year-old daughter. I am glad to meet everyone here. In China I was a Chinese teacher for almost twenty years in a primary school and technical school.

I am very excited about my work as a substitute teacher at FLLC. I have found it really enjoyable. These adorable kids keep you young. I also like the team of teachers, full of love. Currently I am a Chinese teacher at Lexington Chinese School every Saturday morning, too. It is really gratifying to keep working in the child development field. I appreciate the opportunity to work at FLLC.

As a substitute teacher, children's youthful and happy smiling faces are inspiring me to love everyone. I will do my best to let every children feel special and share my love with children, parents, and my co-workers. I also would like to share my culture and language with kids, for example, I can teach kids how to manage chopsticks and how to make Jiaozi (Chinese dumpling), and sing Chinese children's songs and so on.

I like purple, white, and black colors. Spending time with my daughter and enjoying the time with my family seem to be my biggest hobbies nowadays. In my free time I have a passion for learning English and reading Bible.
